"We'll Be Here Tomorrow"

Dr. Gerald Tomanek

President

Dr. Gerald W. (Jerry) Tomanek has been president at Fort Hays State University since 1976. He is the University's seventh president and number one sports fan. He and his lovely wife, Ardis, are virtually permanent fixtures at Tiger home athletic events and attend many road contests as well.

An environmentalist and grasslands consultant, Tomanek has served the University in many capacities since joining the faculty in 1947. His teaching skills and magnetism in the classroom are legend with alumni and faculty. The President holds bachelor's and master's degrees from FHSU and the Ph.D. degree from the University of Nebraska.

Tomanek's accolades are many. He was twice called to the Argentine to lend his grasslands expertise, was a consultant for a CBS-TV prairie grasslands special, is the recipient of numerous awards for his conservation practices and knowledge, and was named "Kansan of the Year" in 1978 by the Native Sons and

Daughters of Kansas. He is a popular speaker and the author of many articles for professional journals. He is active in community and professional groups and is a dedicated church worker.

The man who put FHSU grassland study on the international map realizes that a strong administration is necessary for an outstanding institution of higher education and he attacks that philosophy with the same degree of enthusiasm he used while teaching.

President Tomanek recognizes the importance that a strong athletic program plays in the total overall offerings of a well-rounded university and is committed to the belief that Fort Hays State University will be a leader both in the classroom and on the athletic fields.

Tom Stromgren

Director of Athletics

When Tom Stromgren returned to FHSU four years ago as Director of Athletics, he had a specific goal in mind. He wanted to see Fort Hays State grow into one of the best NAIA schools in the nation.

Just three years down the road, the Tigers most certainly rank among the best in the NAIA. In 1983-84 FHSU posted its best football record in 35 years with an 8-3 mark. To add to the excitement, the Tiger basketball team captured the school's first-ever NAIA National Basketball Championship with an impressive 35-2 record. Add to that some outstanding team and individual performances in FHSU's remaining sports and the Tigers finished 8th in the NAIA's All-Sports Poll.

During the last three years as Athletic Director, Stromgren has been instrumental in the day-to-day improvements in the Tigers' overall picture. He has implemented both the Tigers' Foster Parent and Academic Counseling Programs. In

addition, he has worked steadily to increase the number of season ticket holders and athletic donors at FHSU.

Always an innovator, Stromgren possesses integrity, enthusiasm, fund-raising skills, a successful business background and a knowledge of western Kansas, which has enhanced both Tiger athletics and Fort Hays State University.

Besides being able to save you money on the initial construction of your next building, we can help you avoid high utility bills and potential shutdowns through proper application of insulation.

We give you certified (not calculated) insulation values for installed roof and wall systems. So you know before you build your building how it will perform.

Our MR-24® roof system is the most energy efficient in the world. It is designed to keep the elements out. And expensive heated or cooled air in.

We also offer you numerous attractive, yet energy-efficient wall options.

With utility costs rising, there's never been a more important time to have a builder who knows energy planning. Call us.

**We're willing
to pay up to
\$50,000
for your kid.**

There are probably days when you would gladly give your kid away.

Especially when you start thinking about the cost of college tuition.

But before you commit any desperate acts, why not enter Apple's \$50,000 Scholarship Sweepstakes.

They're giving away \$50,000 towards the cost of a higher education. Good at any institution that'll take it.

Of course there are hundreds of other prizes, too. Including five \$5,000 cash prizes.

Or you could win an Apple® IIc Personal Computer—an educational opportunity in itself. It's a compact version of the Apple IIe, the leading computer used in schools. So it can access the world's largest library of

educational software.

If you're lucky enough to be the grand prize winner, you could even take home an additional \$10,000. Simply make sure you answer the five questions on your entry form correctly. (Never mind what they are, just answer "true" to everything).

In any case, there's no purchase necessary. But the contest ends October 12th. So stop by and see us before then for details.

We'll give you lots of friendly computer advice. Some free Apple back-to-school bookcovers. And all the details on how to get 50 grand for your kid.

Unless, of course, a better offer comes along.

Tiger Booster Clubs

Contributors to the Fort Hays State University athletic program can join one of several booster clubs depending on the amount of their contribution.

The Black and Gold Club is for contributions of \$5 to \$99. Features of this club include a membership card entitling holder admittance to Tiger Rooms, schedules of athletic events, the athletic newsletter, priority on purchase of football and basketball season tickets and special events and travel.

A \$100 to \$250 donation enables contributors to be classified as Century Club members. Besides the above mentioned features, members receive their name in athletic programs.

Another popular booster club at Fort Hays State University is the Tiger Beef Club. Membership in the Beef Club is awarded to interested boosters who contribute a steer or cash (\$250 or more) each year. Proceeds from the sale of such livestock go directly into the department's budget. Beef Club contributors, in addition to above, receive a reserved parking space at athletic events.

The highest level of membership is the President's Club, Flying Tigers and President's Round Table for contributions of \$1,000 or more. These club members have top priority on purchase of football and basketball season tickets, VIP parking, and are eligible for all the features of the other clubs.

BOBBY THOMPSON
Head Coach

In the spring of 1984, Bobby Thompson was looking to get back into football and on the other side of the line, Fort Hays State University was looking for a head coach ... there you have it, the return of "B.T."

Thompson, you see, is no stranger to Fort Hays State and Tiger football. In 1979, he was named the Tigers' head coach and then in 1980 he took on the added responsibilities of athletic director. Under his direction the Tigers recorded a 9-10-2 mark over two seasons.

Then in 1981, Thompson was confronted with an opportunity he couldn't pass up — the chance to become an athletic director at an NCAA school. For Thompson, it was off to the University of South Dakota for a year and from there he ventured into private business for a couple of years.

To make a long story short, Thompson is back at the Tigers' reigns and he plans to do as he has done every place else ... and that is to be successful.

As a college athlete, the diminutive Oklahoman, won honors as a junior college all-American quarterback at Eastern Oklahoma Juco. Then Thompson matriculated to Adams State College in Alamosa, CO, where he directed the Indians to a Rocky Mountain athletic conference championship as the No. 1 signal-caller in 1960. In 1969 Thompson obtained his masters degree in physical education from the University of Idaho.

Thompson's coaching experience goes back a long way. He has coached on all levels from high school to small college to major college, including assistant coaching stints at Kansas State University and Oklahoma State University.

He packs a wealth of knowledge into his coaching philosophy and communicates those abilities to his players. He is a firm believer that football and academics do mix and he wants his players to be outstanding both on the gridiron and in the classroom.

FORT HAYS STATE vs. MISSOURI SOUTHERN

The Tigers will host Missouri Southern State College in their last home game of the 1984 season. FHSU is now 4-3 overall on the season and 1-3 in the Central States Intercollegiate Conference. The Lions are 4-2 overall and 3-1 in CSIC play.

Last week Fort Hays State lost to Washburn at home, 26-14. The Tigers have dropped two straight games in conference action and hope to correct that today. Missouri Southern beat Missouri Western last Saturday by a score of 31-27 at St. Joseph, MO. The Griffons were left inside the Lions five-yard line at the end of the contest.

Missouri Southern is paced by the running attack of Harold Noirfilase and Tom Laughlin who split time at the tailback position. Noirfilase leads the Lions in total yards rushing with 407 yards on 79 carries. He averages 5.2 yards per carry and has five touchdowns to his credit. Laughlin has a total of 380 yards in 80 attempts and averages 4.8 each carry. He has scored three TD's this season.

Marty Boxberger has been the big scoring threat for Fort Hays State in the last few games. Boxberger had a good day against Washburn last weekend with five receptions for 125 yards. He had a hand in both of the Tigers touchdowns. The first being a 22-yard pass the senior from Russell threw to Terry Elder on a reverse pass play. FHSU scored its only other points on a 93-yard kickoff return by Boxberger.

Today marks the last game of Boxberger's colorful career on the home turf of Lewis Field. In all, 12 seniors will be playing their last home game today. Those seniors are: Pat Poore, Stockton, KS; Howard Putter, Kinsley, KS; Vernon Dozier, St. Louis, MO; Steve Clowes, Stockton, CA; Lee Walker, Macon, MO; Mark Deterding, Belleville, KS; Rene Ford, Grand Island, NY; Pat Martin, Miami, FL; John Gambina, Newbury Park, CA; Scott Percival, Wellington, KS; Dan Beaty, Silver Lake, KS.

CENTRAL STATES STANDINGS

NAIA FOOTBALL COACHES ASSOCIATION

WALTER BARR
NAIA-FCA President

The NAIA Football Coaches Association (NAIA-FCA) is an organization of football coaches at NAIA member colleges and universities, representing both Division I and Division II institutions.

The NAIA-FCA provides coaches with a strong voice in the establishment of the rules, standards and formats for the NAIA football program and championship playoffs. Members of the NAIA-FCA serve on important national committees such as the Rating Committee, All-America Committee and Academic All-America Committee.

The Annual Business Meeting of the NAIA-FCA is held each January in conjunction with the American Football Coaches Association (AFCA) National Convention.

DIVISIONS AND AREAS

NAIA football-playing institutions are classified into one of two competitive divisions for playoff purposes (Divisions I & II). Division classification is basically by institutional choice based on scholarships, level of competition, enrollment and other factors regarding the philosophy of athletics at the college or university. A review board meets every two years (even-numbered years) relative to divisional classification.

Each football division is divided geographically into four areas, numbered 1-4, for the purpose of national ratings and post-season playoff selection. An effort is made to maintain a workable balance in the number of teams within each region.

RATERS AND RATINGS

Teams selected for participation in the NAIA Championship Football Playoffs are determined by the NAIA National Football Ratings, compiled weekly throughout the regular season based on the balloting of 16 raters in each division. Members of the NAIA Football Coaches Association serve as the raters, four from each geographical area within each division. Playoff participants are selected from the final regular season top 20 rating.

SELECTION OF TEAMS

Institutions which have declared their intent to participate in the NAIA Championship Football Playoffs by September 15, in compliance with NAIA rules and standards are in full support of the NAIA program, can be selected by the following guidelines:

1. Ranked in the top 12 teams of their respective divisions in the final regular season football rating.
2. The top-ranked team from each of the four geographic areas in both divisions, within the top 12 rated teams, are selected for a quarterfinal game berth. The next four highest-ranked teams (regardless of geographic area) are also selected.
3. In the event one or more areas are not represented among the top 12 teams in the final ratings, then the highest rated teams (regardless of geographic area) will be selected.
4. Teams with four or more non-winning games in either division cannot be selected for a playoff berth.
5. No more than two teams from the same conference may be selected.

Eight teams are selected for the NAIA National Football Playoffs with a total of seven games played on three weekends in each division. The NAIA instituted football into its championship event program in 1956 with one division of competition. A second division was created in 1970.

"WE SUPPORT TIGER ATHLETICS"

This is Fort Hays State University

An aerial view of Fort Hays State University depicts the campus many have said is the "prettiest in Kansas." All the buildings are laced with limestone and the new, lush grass and beautiful trees help the campus live up to its reputation.

Fort Hays State University's beautiful tree-lined campus provides students with an attractive educational setting.

The University is located in Hays, a city of more than 17,000 persons, situated about halfway between Kansas City and Denver on Interstate 70 Highway.

Faculty at FHSU numbers more than 300. An additional 280 staff members contribute to the friendly, clean atmosphere found on the campus.

Students at FHSU have the opportunity to pursue a career by selecting from 24 departmental offerings, our school of nursing, or from our pre-professional programs. The University offers degrees including, one-, two-, four-, five- and six-year study programs, and we offer the associate, bachelor's, master's and specialist in education degrees.

Annual enrollment at FHSU is more than 5,000 students. Two-thirds of the student body are graduates of rural Kansas high schools.

The University offers students a variety of extracurricular activities in which to participate. Departmental and professional clubs, intramurals, varsity athletics, and other groups and activities beckon those with the talent and time to participate.

Four national sororities and five national fraternities maintain chapters here and add to the social, academic and philanthropic activities of student life.

Several concerts are brought to campus each year by the Memorial Union Activities Board. Other entertainment forms come as speakers, dancers or touring groups and individuals.

Fees at FHSU are comparable to other state-assisted institutions in Kansas and considerably less than the private colleges. Persons enrolling in 15 hours of work should be prepared to pay about \$500 each semester at FHSU. Fees do not include the cost of books.

For housing, the University offers two women's residence halls, two men's residence halls, one co-ed hall, and married student housing, all within easy walking distance of classes.

Call Us ... For more information about FHSU, call us TOLL FREE (in Kansas) at 1-800-432-0248, weekdays between 8:00 a.m. and 4:30 p.m.

Campus Tours ... Are available weekdays by contacting the Assistant Director of Admissions (TOLL FREE: 1-800-432-0248, ext. 5666, or 913-628-5666.)

Hays City ... Is the medical, agricultural, educational, and cultural center for the whole of northwest-central Kansas. There are many fine restaurants and motels, businesses, and numerous activities in Hays just waiting for you!

Picken Hall is probably the most identifiable building on the FHSU campus. The stately pillars have been used countless times for photographic purposes.

NATIONAL ASSOCIATION OF INTERCOLLEGIATE ATHLETICS

The National Association of Intercollegiate Athletics (NAIA) is a completely autonomous association, currently administering programs of intercollegiate athletics at over 500 fully-accredited colleges and universities of moderate enrollment. The fundamental tenet of the NAIA is that intercollegiate athletics is an integral part of the total educational program of the institution. This belief is strongly reflected in the governing documents, activities and organizational structure of the Association.

HISTORY AND PURPOSE

Established in 1940 as the National Association of Intercollegiate Basketball (NAIB), the NAIA emanated from a "National Small College Basketball Tournament" inaugurated in 1937 in Kansas City, Missouri. The conversion of the NAIB to the NAIA came in 1952 when the organization expanded beyond basketball and added national championship events in golf, outdoor track and field and tennis. Football, cross country, baseball and swimming were added to the championship event calendar in 1956, and wrestling (1958), soccer (1959), bowling (1962-78), gymnastics (1964), indoor track and field (1966), ice hockey (1968) and volleyball (1969-1980) were later additions.

Of major significance to the NAIA, was the establishment of the women's division within the Association on August 1, 1980. The NAIA decision to offer competitive opportunities and championships in women's athletics was passed by the membership following two years of study and proposals by an ad hoc committee on the implementation of a women's division into the NAIA structure. Currently, the Association conducts ten championship event programs for women in the sports of basketball, cross country, gymnastics, indoor track and field, outdoor track and field, softball (fast pitch), soccer, swimming, tennis and volleyball.

The initial purpose of the NAIA — to provide national championship athletic opportunities to institutions below the so-called "major" level — has indeed been well served. The Association clearly outlines its own responsibilities and those of its members: a sound athletics program, administered and controlled by those responsible for the administration of the institution. This means direct supervision in caliber of competition, financing of the program and taking steps to assure that financial assistance is made available only through the institution and under the same general policies as aid to all students. In short, the basic premise is that the athletics program is a basic component of the overall educational process and not an entity part.

ADMINISTRATION

The governing body of the NAIA is the National Executive Committee, composed of 10 persons elected by the membership. The Executive Committee is responsible for establishing the policies and determining the overall direction of the Association. The Executive Committee hires the Executive Director, who conducts the business and day-to-day operation of the National Office headquartered in Kansas City, Missouri.

The District is the basic unit of the NAIA. The Association is organized into 31 geographical districts spread over the 50 states and a part of Canada. Each District is governed by a District Executive Committee, the chief officer of which is the District Chair. The District Executive Committee establishes a program of championship events in various sports and individual/team champions of those district events are qualified to compete in NAIA Area and National Championship competition.

Eligibility rules within the NAIA govern all play in all sports recognized by the Association, not just post-season play. All eligibility guidelines must be adhered to by all members, including those holding dual affiliation with other associations. Certification of eligibility of all NAIA student/athletes is accomplished through a network of individuals which includes the faculty athletic representative of each institution, the District Eligibility Chair and the National Eligibility Committee.

MEMBERSHIP

Any four-year college or university and upper level two-year institution in the United States and Canada which awards the bachelor's degree or equivalent, may hold active NAIA membership. Active member institutions must be fully accredited by an appropriate accrediting agency or commission.

OBLIGATION OR MEMBERSHIP

Member institutions must conduct their intercollegiate athletic programs with the standards of the regulatory Associations in which they hold membership, and the NAIA. They must pay their annual membership dues and be in support of the policies of the NAIA. Where institutional rules and standards are stricter than those of the regulatory group or the NAIA, those rules and standards of the institution are recognized and supported by the NAIA.

University Anthem

On the plains of Western Kansas
Stands a school we all love well.
'Twas built by the toil of our fathers;
To its glory our voices swell.

Chorus;
Hail to old Fort Hays State!
Let your voices ring
Praise for the Black and Gold
We will ever sing
Long may our valor last
Through the future days,
Hon'ring and praising
Dear Fort Hays.

In the years that lie before us
We foresee our land's many needs.
Through the efforts of new generations,
We'll go on to more noble deeds.
